

Say Goodbye to Toxic Chemicals!

Introducing

SAS

**as Plant & Animal
Wash**

**Our Land Deserves a
Safe, Clean Product.**

For Plants

Enhance plant health. Cleanse plants. Strengthen the natural defense system of the plant. Washed plants appear to be stronger and healthier, producing better flowering & fruitation. SAS can be used alone or in combination with pesticides, herbicides and fertilizers. SAS can be used as a seed/root dip, tree drench, carrier for fertilizers, herbicides, pesticides, etc. with excellent results.

The bottom line is that our product does an excellent job at enhancing both animal and plant health.

SAS

used as

**Plant & Animal
Wash**

**All Natural
Carcinogen Free**

SAS, used as a wash, is a Powerful

Chemical-Free Product that has numerous uses in the agricultural field.

The SAS Formula can help to Protect and Save Your Crop From the Disastrous Results of Infectious Pests!

**Protect Your Investment.
Use SAS as a
Plant and Animal Wash Today!**

For Animals

Can be used for cleansing open wounds. Can be used as a shampoo. Creates a healthy animal coat that “shines” when applied. Helps to rid animal of external pests such as ticks, fleas, lice, etc.

Will not harm animal's eyes, ears or respiratory system, & can even be ingested without ill-effect. SAS is a highly effective and economical cleaner for pens, stables and all types of enclosures. It also helps to eliminate bacterial & fungal infections & insect infestations, while at the same time greatly accelerating the healing process.

SAS as a wash has been successful in treating:

Thrush, Rain Rot, Rain Scald, Mud Fever, Mu Foot, Greasy Heel, Cracked Heel, Scratches, Summer Itch, Girth Rash, Equine Scratches, Dew Poisoning, Swamp Fever, Foot Rot, Yeast, Parasites, Lice, Fungus, Bacteria, Mange, Nicks, Cuts, Wounds, Abrasions, and Lacerations.
